1-10. (Canceled)

TECH CENTER 1600/2900

11. (Currently Amended) An isolated T cell population, comprising T cells prepared according to the method of claim 1019.

12-18. (Canceled)

- 19. (Currently Amended) A method for stimulating and/or expanding T cells specific for a *Chlamydia* CT875 protein having the amino acid sequence set forth in SEQ ID NO: 139, comprising contacting T cells with a composition comprising an antigen presenting cell expressing or pulsed with at least an immunogenic portion of a polypeptide selected from the group consisting of:
 - (a) the polypeptide of SEQ ID NO: 139;
- (b) a polypeptide sequence having at least 95% identity with the polypeptide sequence of SEQ ID NO: 139; and
- (c) a polypeptide sequence having at least 99% identity with the polypeptide sequence of SEQ ID NO: 139;

and thereby stimulating and/or expanding T cells specific for a Chlamydia protein having the amino acid sequence set forth in SEQ ID NO: 139.

- 20. (Previously Presented) A composition comprising a first component selected from the group consisting of physiologically acceptable carriers and immunostimulants, and a second component consisting of a polypeptide selected from the group consisting of:
 - (a) the polypeptide of SEQ ID NO: 139;

- (b) a polypeptide sequence having at least 95% identity with the polypeptide sequence of SEQ ID NO: 139; and
- (c) a polypeptide sequence having at least 99% identity with the polypeptide sequence of SEQ-ID-NO: 139.
